SOFTWARE DEVELOPMENT PROFESSIONAL

Seeking software development assignments across the industry

Executive Summary

- A result oriented, analytical, and self-driven professional seasoned with 8 years of successful career as Full stack
- Good in GOF design patterns like, Singleton, Factory
- Currently working as Software Engineer with **Photon Interactive India,** Bangalore,
- Target-oriented professional with proven development acumen backed by focused energies fostering business growth and target achievements.
- Proficient in Application development and maintenance life cycle process
- Experience in writing Database objects (Stored Procedures)
- Pleasing youthful personality with a zest for life, knowledge and sound understanding of technology
- Involved in End-to-End Development Process
- Ability to learn & develop using new technologies quickly.

Core Competencies

C# ∞ Dot Net Core ∞ MVC ∞ ASP.Net ∞ Azure DevOps ∞ Azure (Azure functions, Logic App, Blob Storage) ∞ JIRA ∞ JavaScript ∞ CSS ∞ jQuery ∞ SQL Server ∞ Team Foundation Server ∞ Kendo UI ∞ Client Servicing ∞ Software Maintenance ∞ Design Patterns ∞ Stored Procedures and User Defined Functions ∞ Agile methodology

Work Experience

Photon Interactive Pvt. Ltd., Bangalore   **Since Feb-21**

Sr.Software Engineer IV

- ❖ Followed Agile methodologies (Scrum).
- ❖ Understanding Business requirements.
- ❖ Responsible for innovative approach for enhancements over existing applications to meet with current business demands.
- ❖ Worked on MVC Application and Web API.
- ❖ Adapted to client requirements during Development cycle.
- ❖ Bug fixing implementation faces for such a compact system to implantation and involving design.
- ❖ Team discussion with members and new design implementation with design patterns system. To develop the new technology skills and idea for the good product

Cunesoft India Pvt. Ltd. (Phlexglobal Ltd.), Bangalore   **Dec-18-Sep-20**
Software Developer

- ❖ Reviewing current systems
- ❖ Producing detailed specifications and writing the program codes
- ❖ Testing the product in controlled, real situations before going live
- ❖ Preparation of training manuals for users
- ❖ Maintaining the systems once they are up and running
- ❖ Developing frequent Change Request as per client's requirements.
- ❖ Bug fixing implementation faces for such a compact system to implantation and involving design.
- ❖ Team discussion with members and new design implementation with design patterns system. To develop the new technology skills and idea for the good product

MP Online Ltd., Bhopal   **Oct-2014 to Dec-2018**
Software Engineer

- ❖ Reviewing current systems
- ❖ Working closely with analysts, designers, and staff
- ❖ Producing detailed specifications and writing the program codes
- ❖ Testing the product in controlled, real situations before going live
- ❖ Preparation of training manuals for users
- ❖ Maintaining the systems once they are up and running

Synopsis of Projects:

Project 1:
Project :- **FSI(Frontier Scientific Interface)**
Environment :- Web API (Dot Net Core), , Azure DevOps, Azure (Azure functions, Logic App)
Team Size :- 24
Description :- FSI is a chemical materials management and custom research services provider to the pharmaceutical, biotechnology, industrial chemical, government, and academic sectors. FSI specializes in sample management, reformatting and distribution of screening compounds and building blocks for small molecule drug discovery, SAR studies, and lead optimization. The application is surrounds three main parts and they are creating plates through the format builder master page and after that selecting the plates and uploading the compounds based on their iDs and placing the order , duplication of the compounds and removing the compounds from the list . Apart then the role assignment of the system for handling those activity.

Project 2:
Project :- **GSK(GlaxoSmithKline) -ULX (Unitedlex integration)**
Environment :- Web API (Dot Net Core), Salesforce, Azure DevOps, Azure (Azure functions, Logic App)
Team Size :- 12
Description :- There are three system available in UnitedLex integration , conga, vantage, integration,as a legal professional able to create an agreement in conga with all the fields, after creating an agreement we have to send it to vantage system by using request legal support then integration layer creates the SR in vantage, the CONGA agreement number that the SR was created from will be stored on the SR in Vantage After the Vantage SR is created, the integration layer will return the Vantage SR number to CONGA to display on the agreement there are five stages in conga. Request, Risk, Authoring, Signature, In-effect. if we are moving one stages to another stages in conga it should be updated in vantage in active sub-status there are five stages in Vantage. Submitted, Triage, Assigned, Active, Completed. If we are changing sub-status in vantage in active stage it should be updated in conga in stages

Project 3:
Project :- **Army and Air-force Exchange Service**
Environment :- MVC, CSS, HTML, jQuery, SQL Server 2020
Team Size :- 8
Description :- The Army & Air Force Exchange Service (AAFES, also referred to as The Exchange and The PX or The BX) is the retailer on U.S. Army and Air Force installations worldwide. The Exchange is headquartered in Dallas, Texas. Since 1895, the Army & Air Force Exchange Service has gone where Soldiers, Airmen and their families go to improve the quality of their lives by providing valued, tax-free goods and services at exclusive military pricing. The Exchange is the 61st-largest retailer in the United States. Its earnings provided $2.1 billion in dividends to support military morale, welfare and recreation programs over the last 10 years. The Exchange is a non-appropriated fund entity of the Department of Defense and is directed by a Board of Directors.

Project 4:
Project :- **RIM -Regulatory Information Management (Client: Johnson and Johnson)**
Environment :- MVC, ADO.Net, Kendo UI, CSS, HTML, jQuery, SQLServer2018
Team Size :- 12
Description :- Manage the life-cycle of pharmaceutical product registration activities. Get extensive status information and use the alert management which is included in all workflows. Illustrate reports using standard reports (graphical, tabular, and with map visualizations) or design your own reports. Our Regulatory Information management's smart workflow capabilities allow you to create and assign regulatory tasks across your organization – for management, departments, headquarters, and affiliates. The software helps you with creation, reuse, and batch product updates.

Project 5:
Project :- **H1 Reporting System for Chemist &Druggist**
Environment :- MVC, ADO.Net, Java Script, CSS, HTML, jQuery, SQL Server2014
Team Size :- 5

Project 6:
 Project :- Madhya Pradesh Public health Service Corporation Limited
 Environment :- C#, Java Script, CSS, HTML, jQuery, SQL Server2014,ASP.Net
 Team Size :- 5
Project 7:
 Project :- Acid and Poison Licensing System
 Environment :- C#, Java Script, CSS, HTML, jQuery, SQL Server2014,ASP.Net
 Team Size :- 2
Project 8:
 Project :- Directorate of Health Services
 Environment :- C#.Net, Java Script, CSS, jQuery, SQL Server2014,ASP.Net.
 Team Size :- 5

Academic and Professional Credentials

MCA (Computer Applications); 2013

Rajiv Gandhi Technical University, Bhopal 73%

BCA (Computer Application); 2010
Barkatullah University, Bhopal 58%

H.S.C; 2007
M.P Board, 58.3%

S.S.C; 2005
M.P. Board, **59.4%**

Software Development Skills
❖ Expertise in .Net Framework technologies like DotNetCore, ASP.NET, C#.NET, ADO.NET, XML, MVC, JQuery.
❖ Possess excellent skills in development, implementation and maintenance.
❖ Worked extensively on ADO.NET to access database.Good working skills in SQL Server 2018, 2020, Cosmos DB.

IT Forte
Languages	: Dot Net Core, C#, MVC4.
Web Technologies	: ASP.NET, HTML, CSS, JavaScript, Ajax, Kendo UI, jQuery, MVC,Entity Framework.
Database	: SQL Server2018/2020, Cosmos DB.

Date of Birth: 17-Aug-1989   Date**:**
Linguistic Proficiency: Hindi, English
